About us

In trading with hops BayWa cooperates successfully with national and international brewers since many years.

The service portfolio includes:

- Trade with German hops and hop products
- Technological advice for customers
- Cold storage for a closed cold chain from the original hops to the finished product
- Processing of raw hops to finished product

From the German hop growing regions Tettnang, Hallertau, Spalt and Elbe-Saale we offer all common hop varieties, as well as the new special aroma varieties.

The area Tettnang, where our branch originated, is worldwide known for its fine aroma hops.

Our finest hops – the heart of **your** beer!
